Fadoua Bousalim
Date of birth : 27/07/1995

Senior Data & AI Engineer

Education

2018–2019 **National University of Singapore - NUS**, *Msc Statistics by coursework*, *Singapore.*
Major courses: Advanced topics in applied statistics, spatial statistics, generalised linear models, multivariate data analysis, decision analysis, data mining, statistical consulting

2015–2019 **Ecole Centrale Paris**, *Engineering and management*, *Paris, France.*
Major courses: Advanced statistics & probabilities, theoretical informatics, risk management, leadership in projects

2017–2018 **Pierre & Marie Curie University (UPMC- Sorbonne)**, *Master's degree*, *Paris, France.*
Major: Applied Mathematics - Statistics & Data Science

Jul 2017 **Hong Kong University of Science & Technology**, *Summer camp for elite students*, *Hong Kong.*

2014–2015 **CPGE – Lycée Pierre De Fermat**, *Toulouse, France.*
MP* - Second year of a highly intensive preparation in mathematics & physics to take competitive entrance exams to French top engineering schools

2013–2014 **CPGE – Lycée Polyvalent de La Borde Basse**, *Castres, France.*
MPSI – First year of an intensive preparation in mathematics & physics

Professional experience

Oct 2024–Now **Senior Data & AI Engineer**, *Opti Digital*, Paris, France.
Building data / MLOps infrastructure & shipping production ready AI features (GCP workflows / FastAPI / Google Cloud Functions / NLP / VertexAI / Terraform / Python / GitHub CICD)

Jan 2023–Sept 2024 **Senior Data Scientist & MLOps Engineer**, *Talarian*, Paris, France.
Built GenAI products data infrastructure. Designed & optimised ETL processes using DBT, GCP, Airflow, & GitHub.

Feb 2022–Jan 2023 **Data Team Lead**, *Arcane*, Paris, France.
Managed a team of data scientists & engineers. Led data modelling & ML projects.

Jul 2019–Feb 2022 **Data Scientist/Consultant & Project Manager**, *Numberly*, Paris, France.
Managed insights, analytics, data, customer clustering, & statistical consulting projects

Apr–Aug 2018 **Data Scientist**, *RATP Smart Systems*, Paris, France.
Database manipulation, data analysis/correction/visualisation, flows prediction, error margins estimation & reduction

2017–2018 **Mathematics Tutor - Bachelor level**, *UPMC*, Paris, France.

2016–2018 **Secondary & Higher Education Science Teacher**, *Groupe Réussite*, Paris, France.

Projects

Dec 2017 **Data challenge participant**, *Société Générale*, Paris, France.
Built a Machine Learning model to predict the Crude Oil production trend. Ranked amongst top 5%

2016–2017 **Project team lead, Time-Banking**, *Ecotemps*, Paris, France.
Led the project, developed a database & a web platform

2015–2016 **Project team lead, Gift Economy**, *Eotopia*, Paris, France.
Managed the project, made a first graphical proposal for the conception of the firm's new website

Languages

French (full proficiency), English (full proficiency), Arabic (full proficiency), German (limited proficiency)

Tech stack & skills

- AI : VertexAI, BQ ML, GCP, FastAPI
- ETL & ML: DBT, GCP Workflows, Airflow, Docker, AWS
- Languages: Python, R, SQL, Apache Spark, Latex
- Skills : GenAI, NLP, DL, ML, ETL

Personal development - MOOC

- « Statistics and R » - Harvard
- « Regression models » - Johns-Hopkins
- « Machine Learning » - Stanford

Interests

Writing / Martial arts / Climbing / Languages (currently German)
